

# Supporting parents keep their children safe online

A virtual session lead by 'the 2 Johns' on online safety  
Wednesday 3rd February at 8pm using the Zoom code:  
<https://us02web.zoom.us/j/83458433999>

**Probably the single most important session you are likely to receive as a parent - please join us to keep your children safe.**

The session will consider:

- The online world and how our young people are using it.
- The dangers they face online.
- How influencers work, which can lead to our children becoming vulnerable.
- Solutions that parents can adopt to help keep their children safe
- How the Stranger Danger message that parents are familiar with can be translated to the online world in 2021.

## *Testimonials*

*"These guys came into our school and totally opened my eyes to a world I thought I was fully in touch with... how wrong I was!"*

*"After hearing the 2 Johns speak I feel far more able to talk to my kids about the scary what-ifs in a safe way. I think they trust me to help now and are less likely to hide things if something does go wrong."*
